Summary

Motivated Software Developer specializing in the MERN stack and full-stack web development. Experienced in building responsive, scalable, and user-friendly applications with clean and efficient code. Passionate about solving real-world problems and contributing to impactful projects in collaborative environments.

Education

Sagi Ramakrishnam Raju Engineering College

Bachelor of Technology in Artificial Intelligence and Machine Learning

Bhimavaram, India

AUG 2023 - APR 2026

- Pursuing with an 8.58 CGPA

Swarnandhra College of Engineering and Technology

Diploma in Computer Science and Engineering

Narsapuram, India

OCT 2020 - APR 2023

- Completed Diploma with 89.50 % overall.

Skills Summary

- **Programming Languages** : Java, Python, JavaScript
- **Markup Languages & Style** : HTML, CSS
- **Machine Learning** : Supervised, Unsupervised Learning
- **Frameworks and Libraries** : ExpressJs, ReactJs, NodeJs
- **Tools** : Git, GitHub
- **Databases** : SQL, MongoDB

Projects

- **E-Commerce Website (MERN)** | **Live Link** : Built a MERN-based e-commerce website with secure authentication, product listings, a shopping cart, and a responsive, user-friendly interface..
- **Weather Forecasting App** | **Live Link** : Developed a React.js weather app providing real-time forecasts and 24-hour insights using the OpenWeatherMap API.
- **Restaurant Web App** | **Live Link** : Developed a restaurant website using Node.js, Express, and MongoDB with user and admin dashboards for real-time order tracking. Enabled efficient order management through a responsive full-stack system.
- **Phishing-Link-Detection** | **GitHub** : Designed a phishing URL detection tool using machine learning (Random Forest, Gradient Boosting) with an interactive frontend, achieving 90 accuracy .

Intern

• MERN Full Stack Developer - EduSkills

Successfully completed a MERN Stack Full-Stack Developer Internship at EduSkills, with hands-on experience in front-end development (React.js), back-end development (Node.js, Express.js), database management (MongoDB), and full-stack web application deployment.

• ChatGPT/Generative AI - BlackBucks Technologies

Completed an internship at BlackBucks, gaining hands-on experience in Machine Learning and AI fundamentals, such as data preprocessing, model integration, and implementing intelligent solutions for real-world use cases.

Certification

- **Python | Certification** : Completed Python course from Cisco Networking Academy and learned basic programming skills.
- **SQL | Certification** : Certified in SQL by HackerRank with proven database querying skills
- **MERN Full Stack Developer | Certification** : Completed certification with hands-on experience in MERN and related technologies through practical training and projects.
- **ChatGPT/Generative AI | Certification** : Completed Generative AI and ChatGPT certification from IIIT, focusing on applied AI Technologies.
