Summary

Motivated Software Developer specializing in the MERN stack and full-stack web development. Experienced in building responsive, scalable, and user-friendly applications with clean and efficient code. Passionate about solving real-world problems and contributing to impactful projects in collaborative environments.

Education

Sagi Ramakrishnam Raju Engineering College	Bhimavaram, India
Bachelor of Technology in Artificial Intelligence and Machine Learning	AUG 2023 - 2026
• Pursuing with an 8.55 CGPA	
Swarnandhra College of Engineering and Technology	Narsapuram, India
Diploma in Computer Science and Engineering	OCT 2020 - APR 2023
• Completed with an excellent A+ grade, securing 89.50% overall.	

Skills Summary

- **Programming Languages:** Java, Python, JavaScript
- **Markup Language & Style:** HTML, CSS
- **Machine Learning & AI:** Supervised, Unsupervised Learning
- **Frameworks and Libraries:** ExpressJs, ReactJs, NodeJs
- **Tools:** GitHub
- **Databases:** SQL, MongoDB

Projects

- **E-Commerce Website(MERN) | Live Link :** Built a MERN-based e-commerce website with secure authentication, product listings, a shopping cart, and a responsive, user-friendly interface..
- **Weather Forecasting App | Live Link :** Developed a React.js weather app providing real-time forecasts and 24-hour insights using the OpenWeatherMap API.
- **Restaurant Web App | Live Link :** Developed a restaurant website using Node.js, Express, and MongoDB with user and admin dashboards for real-time order tracking. Enabled efficient order management through a responsive full-stack system.
- **ID Gen Pro | GitHub :** Built an ID card generator with image upload, editable details, QR code generation, and PDF/image export for event and corporate use.

Intern

- **ChatGPT/Generative AI- BlackBucks Technologies** Jun 2024 - Sep 2024
Completed internship at Blackbucks, gaining hands-on experience in ChatGPT and Generative AI technologies, including model integration, prompt engineering, and real-world application development.
- **Java Full Stack Developer- EduSkills** Apr 2025 - Jun 2025
Completed Java Full Stack Developer internship at Eduskills with hands-on experience in front-end and back-end development, database management, and Java-based web technologies.
- **MERN Full Stack Developer - InnovateLoop Solutions** Jan 2026 - Apr 2026
Successfully Completed a MERN stack internship at InnovateLoop Solutions, gaining hands-on experience in React.js, Node.js, Express.js, MongoDB, and full-stack deployment.

Certification

- **Java Full Stack Developer | Certification :** Completed certification with hands-on experience in Java and related technologies through practical training and projects.
- **Python | Certification :** Completed Python course from Cisco Networking Academy and learned programming skills.
- **Sql | Certification :** Certified in SQL by HackerRank with proven database querying skills
- **AWS Academy Data Engineering | Certification :** Certified in Data Engineering with expertise in data pipelines and AWS analytics tools.
- **ChatGPT/Generative AI | Certification :** Completed Generative AI and ChatGPT certification from IIDT, focusing on applied AI Technologies.
